Gloo

The creative binding

Traditional paperback

Spiral

Gloo
Shake up the way of seeing

180° the picture revolution

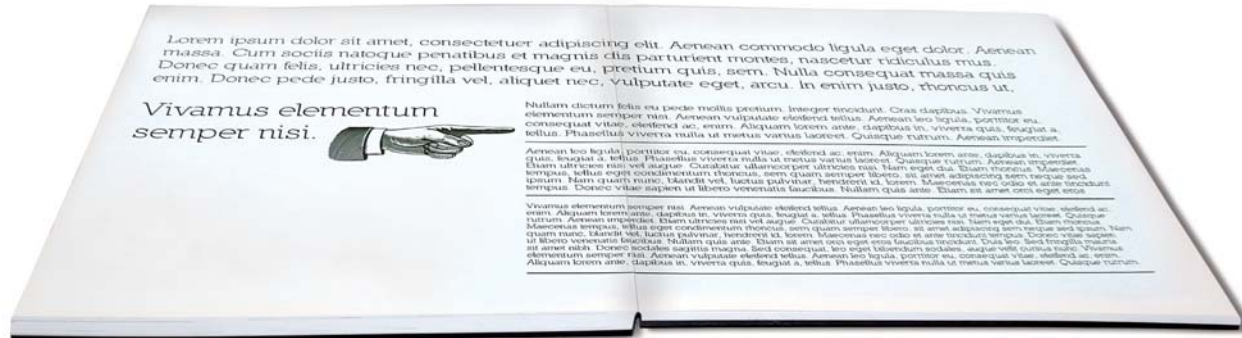

While opening a book with a paperback binding, the instinctive gesture is that of flattening its central part with the hands for seeing the image intently, if possible.

Gloo exalts the pleasure of sight because it allows the perfect half-turn opening of pages. No limits to creativity, just place pictures, graphic and texts in any point of the page.

The result will be amazing!

Traditional paperback with examples of paged texts, that has to take into consideration a sufficient margin from the fold

With the new binding Gloop, no limit to paging texts, also on the fold

MAXIMUM CREATIVE FREEDOM

Page freely pictures, graphic and texts in any point of the page, with Gloop you have full creative freedom, keeping the best legibility and aesthetic result.

No compromise with creativity!

A file leads to another

STOP to QUATERNION

Forget the quaternions

If two pages are enough, why should you insert 4 pages?

How many times 2 pages are sufficient for the customer and you had to insert 4 pages?

Gloop is the freedom of designing, because it allows you to insert even only a single file, with the most appropriate paper weight, from 80 to 1,000 gr.

Moreover you can diversify the paper type and insert it in any point of the project!

But if you are a traditional guy, you can continue to work with signatures.

Glooo

Technical

Gluing of the cover, even cardboard covers, directly on the raw cut

Casing with application of the cover exclusively on the spine thickness

Semi-casing with application of the book block on the inside back cover

Cover

Glooo allows to tear papers off in different point, without compromising the gluing. It is ideal for books of postcards, notepads, agendas, planners, etc.

You can insert pages that can be different according to paper type and weight, from the thinnest to the thickest

Spines

Spine only

Cover with spine

Bondonian binding

Glooo

The cover is pasted directly on the spine and this grants a 180° opening angle

Traditional paperback

The opening of the cover is partially limited

Natural, Color, Glitter, Texture or Hologram, the **Gloo** range was created to satisfy any creative and technical need, with many advantages such as:

- Applying covers only on the spine;
- a 180° vision without interruptions for pictures, graphics and texts also covering the fold;
- a wide choice of materials for covering the spine such as Flock, Imiting, gauze, silk, Lux silk, holograms;
- inserting even single files in any point, no matter the weight or the type of paper;
- removing one or more pages without compromising the gluing of the others;

Gloo.N

Binding's never been so Natural!

The ideal solution for a milled-NOT**-milled paperback!**

All the naturalness of Gloo.N effect, for an invisible binding. Choose among the neutral effect, the gauze, with gluing of the cover directly on the raw cut only on the spine, with casing or semi-casing.

N

Gloo.C

Binding's never been so Coloured!

Non stop to creativity...

The brightest and most fluorescent colours give life to Gloo.C variation. Customise the spine with logo or graphics to enhance your creativity.

Spines with Gloo.C with different colours even with Pantone colours

Spines customised with logo or graphics.

Gloo.G

Binding's never been so Glamour!

Choose between coloured or transparent base, the result is glittering!

Gloo.G is the new extremely creative binding system that let you free to bind your projects with certainly glamour spines. The result is obtained by choosing the base and glitter colours (the same or contrasting colours) and the desired intensity.

Spine with Gloo.C as base and exposed Gloo.G

Spine with Gloo.N as base and mixed Gloo.G, the glitter intensity is up to you!

Spine with Gloo.C as base and mixed Gloo.G, the glitter intensity is up to you!

Gloo.T

Rilegare non è mai stato così Texture!

Bind with elegance!

Another variation of Gloo range that allows to bind with elegance choosing among a wide range of textures soft to the touch with velvety look, such as:

- Flock
- Imitlin
- gauze
- Silk
- Lux silk
- Cloth

GALLERY

**PRESS, BINDERY
& PAPER INDUSTRY**

GP&S is now 30 years old... for 30 years we have been granting to our customers our care of the smallest details, our selection of the best materials, our precision, our work made by skilled and expert hands for a result of great excellence, completely **Made in Italy**.

At a time when machines are more and more replacing human labour, we are going against the flow, providing things that machines cannot provide and taking care of all those works that cannot be automated.

We believe nothing can represent a company better than its actual products.

Good products are not always made by good companies, but a good company will always be able to make a good product!

We are specialized in **finishing** and **assembly**, as these phases represent the highest expression of manual labour and require great experience to find solutions, even when it seems impossible to.

The experience acquired over the years, together with our manual and technical skills, enable us to make superior quality products, thanks to our precision and our care for the smallest details.
